RECL's CSR endeavour to sponsor the course fee, has given an opportunity to 12<sup>th</sup> pass unemployed youth, who were not able to pursue gainful career, for economic reasons. There are a large number of aspirants enquiring about the next sponsorship

so that they may get an opportunity for admission in ATDC courses as RECL's CSR sponsored candidates, for gainful employment to sustain themselves and their families.

A glimpse of candidates undertaking training at State-of-the Art infrastructure facilities at various ATDC centres, is given in this report.
